## GRAND TURK, TCI

November 10 - 17, 2018

**\$1575**

Grand Turk is acclaimed for its beautiful dive sites and world renowned wall, which starts at depths of only 25-30 feet and plunges into the abyss. Grand Turk is situated on the world's 3rd largest coral reef where visibility often exceeds 100 feet. A wall of coral runs parallel with the entire island and gradually slopes to depths of more than 7,000 feet. There is an amazing variety of healthy colorful corals and sponges. Look for colorful parrot fish, Nassau grouper, trumpet fish, octopus and more. Sea turtles and rays can be spotted almost any time of year. Large animals such as mantas, eagle rays and sharks are also regularly seen cruising along the majestic wall. The topography of the wall is exciting, and being only 1/2 mile off shore makes for short, easy boat rides.

We will be staying at the beautiful Osprey Beach Hotel where we can enjoy poolside dining with incredible food and excellent atmosphere. The suites comprise of 2 queen size beds and a mini kitchen. Each beachfront suite has a private balcony or patio overlooking the ocean and beach. Grand Turk is one of the most peaceful islands in Turks and Caicos, with lovely white secluded beaches. The island is reminiscent of Colonial Bermuda with many historical buildings. After diving, relax on the beach or snorkel for lost treasures. Our last trip guests found old flints and black glass dating back to the 1600's off these very beaches.
